SUMMARY

I'm a full-stack developer with 5 years of experience creating responsive and dynamic web apps. I work with JavaScript, ReactJS, Next.js, Node.js, and use Tailwind, Bootstrap, and W3CSS for design and I enjoy working with APIs, optimizing SEO, and ensuring websites are fast and secure. I'm always learning new things and love building projects that make a real difference.

EDUCATION

i. **MSc - Computer Science**, University of Lagos, Nigeria.
ii. **BSc - Computer Science**, Federal University Oye, Ekiti State, Nigeria.
iii. **National Diploma in Statistics**, Federal Polytechnic Offa, Kwara State, Nigeria.

WORK EXPERIENCE

Frontend Developer
Avenue Impact
https://www.avenueimpact.com/

- Utilized **ReactJS**, **Tailwind CSS**, and other modern web technologies to create an intuitive and efficient UI/UX
- Developed and maintained a **responsive Landing Page**, **User Dashboard**, and **Admin Dashboard**, ensuring seamless navigation, and efficient course management for both **live and recorded sessions**.
- Integrated and consumed **RESTful APIs** to facilitate smooth communication
- Integrated **Git for version control**, collaborating with the development team to streamline deployments.
- Worked in a **remote setting**, collaborating with cross-functional teams using project management tools such as Slack.

Instadelivery — Frontend Developer

Tech Stack: Next.js with TypeScript
https://app.instadelivery.org

- Managed state and data flow in the frontend with Next.js & TypeScript, ensuring type safety and smooth UX.
- Integrated **Google Maps / Location APIs** to enable real-time location tracking, address autocomplete.

Fullstack Developer
Kenttimo Limited, Lagos Nigeria
https://kenttimo.co/

- Built and optimized responsive user interfaces with HTML, CSS, and React.js, delivering a seamless online land property purchasing experience.
- Developed and maintained backend services with Node.js and Express, integrating APIs and managing database operations to support business logic.

PERSONAL PROJECTS

AI Medical Voice Agent
https://ai-medical-voice-agent.vercel.app/

- Developed a real-time AI platform with ReactJs and TypeScript for **voice consultations** with medical specialists across 12 fields, using AssemblyAI and PlayHT for live speech processing.
- Integrated **Gemini 2.5 Flash** for accurate, context-aware medical responses, and built a responsive frontend with Next.js and Tailwind.
- Implemented authentication, subscriptions, and a secure backend with Drizzle ORM and Clerk.

ShowTicket
https://showticket.vercel.app/

- Developed a **full-stack** with **ReactJs and TypeScript for cinema booking platform** with responsive UI and real-time seat selection, showtime booking, and live availability updates.
- Built a **secure backend** with Node.js & Express.js, using Inngest for background processing and real-time updates.
- Integrated **Clerk for authentication** and Axios for efficient API communication, creating a seamless user and admin experience.

Social Media Web Application
https://social-media-apps-one.vercel.app/

- Tech Stack: ReactJS, Node.js, Express.js, MongoDB, Socket.io
- Developed a full-stack social media app with core features like authentication, posting, following, and real-time chat.
- Implemented Socket.io for live messaging and designed scalable backend APIs with a responsive UI.

SKILLS

- **Programming Languages**: Proficient in JavaScript, and PHP.
- **Web Development**: Skilled in HTML, CSS (Tailwind, Bootstrap and W3CSS), JavaScript (ReactJs), Typescript, Next.js, Node.js
- **Version Control:** Proficient in **Git and GitHub** for collaborative development
- **Project Management:** Proficient in coordinating tasks, timelines, and resources to ensure successful completion of projects while aligning with goals and objectives.
